EXPERIENCE

- **Freelance for SAS Academy** 2024-25
Full Stack Developer (Academy Management Software) Kolkata, INDIA
 - **Tech Stack:** ReactJs & Tailwind CSS (Frontend), Spring Boot (Backend), MySQL (Database)
 - Developed a **real-time academy management system** with **3-tier login** for students, faculty, and admin, managing enrollments, attendance, and faculty-student assignments.
 - Built an **Accounts module** for tracking student fees, faculty payouts, and academy revenue, with monthly, quarterly, yearly reporting and **Excel export functionality**.
 - Implemented a secure **CBT exam module** with full-screen mode, strict time limits, auto-submit on exit attempts, and detailed response tracking/export.
 - Added an **admin dashboard** to visualize student performance, exam completion, pending fees, and faculty payments, streamlining operational decisions.
 - Delivered **end-to-end solution** including requirement analysis, system design, development, testing, deployment, and live hosting, significantly improving workflow, reporting, and operational efficiency.

PROJECTS

- **AI Resume Analyzer: Intelligent Resume Classification System** 2025
Language & Libraries: Python, Pandas, NLTK, Scikit-learn / *IDE:* PyCharm 
 - Built during a **4-week AI Azure Internship** with Edunet Foundation & Microsoft; selected among **1000+ participants**.
 - Cleaned and labeled **1000 resumes** using Pandas and Regex to extract role-specific keywords.
 - Vectorized text using TF-IDF and trained a **Multinomial Naive Bayes model** to classify resumes into roles like Data Science, HR, and Web Dev.
 - Evaluated model performance, reaching **87% accuracy**.
- **Flappy Bird: Arcade Game Recreation in Python** 2024
Languages & Libraries: Python, Pygame / *IDE:* PyCharm 
 - Developed a playable arcade game with jump logic, scoring, and obstacle generation within **1 week** using Pygame.
 - Created **3+ game components** using object-oriented principles (Bird, Pipe, Ground) for reusability and better structure.
 - Implemented collision detection and game-over logic with **pixel-accurate hitboxes**, maintaining smooth gameplay at **60 FPS**.
